Modern luxury villa with breathtaking panoramic sea views

## Prices & Costs

Purchase Price	5.400.000 €
----------------	-------------

## Property description

The entire living space of the villa is divided on only one floor and connected by a staircase and a lift to the garage (several parking spaces) in the basement and the storerooms, the engine room and a small apartment, which has a large living room with terrace, also with views There is a furnished kitchen and a bathroom on Es Vedra.

The main living space extends over a floor, it includes: a large living room, a modern high-quality fully equipped German-brand kitchen, a dining room, a guest toilet and a large office in the right wing, which can serve as a second dining room and seating 16 people (at table) offers. (Incidentally, this room can also be converted into a bedroom with another bathroom).

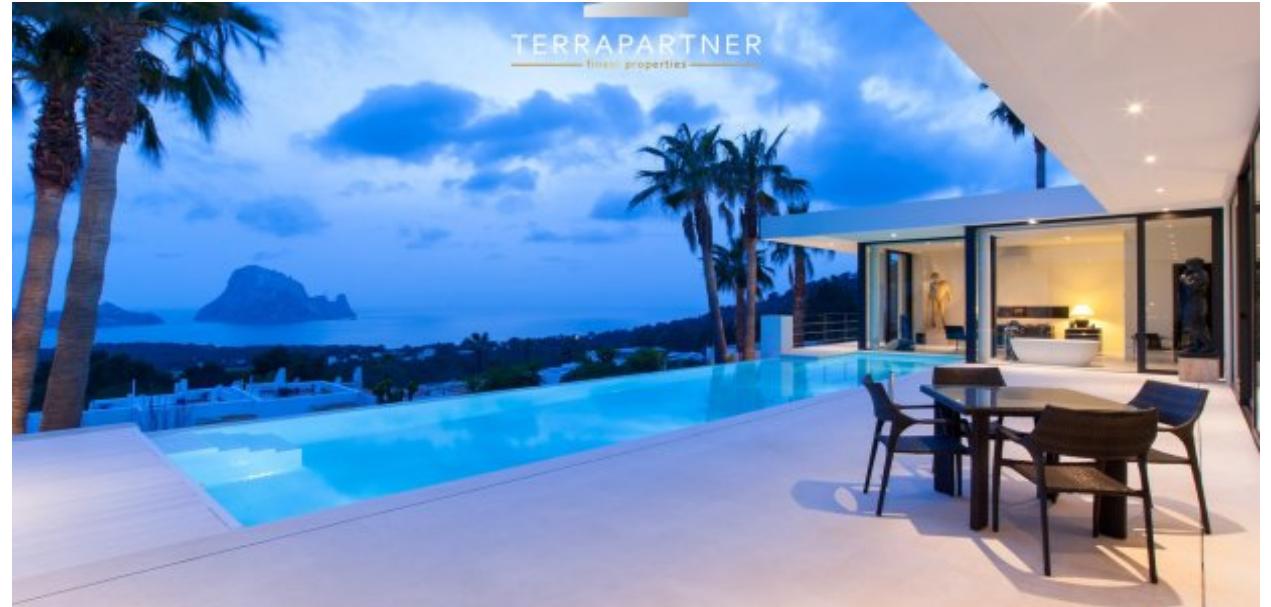

All the rooms are sound proof with wifi everywhere. The villa is also fitted with a camera security system that can be reviewed from distance, the alarm is connected to a security company on the island

The left wing of the villa includes: a bedroom with its own living suite and walk-in closet, a bathroom with a large Italian shower and adjoining hammam; a large bath for two with views of Es Vedra; from this room there is direct access to the infinity pool; There are also fitness equipment and low voltage lighting for the evening.

## Details of the property

Living space	405 m <sup>2</sup>
Plot area	5.788 m <sup>2</sup>
Bedrooms	4

In the left wing of the villa is also a guest room with private bathroom and overlooking a beautiful interior garden. (It is therefore possible to set up three large rooms next to the master bedroom).

From the living room, whose ceiling height is 3.10 m, you can reach the spacious terrace with tables and loungers along the pool overlooking Es Vedra through large sliding glass doors; Two large troughs with magnificent, mature palms frame the view and the garden on the front of the villa is planted with giant cacti and succulents. The gardens and plants are watered automatically via an irrigation system on the front and back of the villa. The garden at the back of the house was perfectly adapted to the natural, hilly terrain with centenary olive trees, numerous pine and sweet trees; a waterfall, runs into a basin designed as biotope; Of course, all the gardens are illuminated in the evening, which transforms them into an impressive, fairy-tale spectacle.

The technical room in the basement include the floor heating, treatment of the pool water, solar heating of water.
